

Unum IFSA Balanced Fund

October 2023

Portfolio Objective

The Unum IFSA investment strategy provides investment solutions tailored to specific risk profiles. Asset allocations are done with the aim of achieving the best risk adjusted return for the investor. This is done by diversification across traditional and alternative asset classes, as well as diversification within asset classes. We follow an active investment management approach to take advantage of opportunities that arise in the market and changes that occur in the economy. Our active approach is based on solid fundamental, as well as technical analysis.

Disclaimer

Unum Capital (Pty) Ltd is an Authorised Financial Services Provider, License No. 564. ETF's and shares are medium to long term investments. The exposures indicated in the graphs may differ from time to time due to market movements, fund limitations and the portfolio manager's discretion. All information is product related, and is not intended to address the circumstances of any Financial Service Provider's (FSP) client. In terms of the Financial Advisory and Intermediary Services Act, FSP's should not provide advice to investors without appropriate risk analysis and after a thorough examination of a particular client's financial situation. The value of the portfolio may go down as well as up and past performance is not indicative of future performance. Fluctuations or movements in exchange rates may cause the value of the underlying international investments to go up or down. A full risk disclosure is available from Unum Capital. The information above is based on a backtested model portfolio, and excludes brokerage costs from trading.
