

### About The Fund

The fund is designed for investors seeking an alternative investment that provides a yield in excess of traditional cash investments. The aim of the fund is to provide investors with consistent returns that outperform the Consumer Price Inflation (CPI) +8% benchmark, with an annual target objective of 16%. The Cornerstone Core Strategic Fund invests primarily in unlisted entities, but can include listed equities, property and other funds if there is a compelling reason to do so. The Cornerstone Core Strategic Fund will from time to time hold a very small portion in cash, while suitable investment opportunities are being sought.

### Investment Objectives

- Generate returns over the long term regardless of market direction.
- Grow investors' capital over the long term.
- Reduce volatility of returns by managing the risks associated with investing in unlisted equities.
- This is a high-risk fund that aims to progressively outperform inflation.
- It is predominantly invested in companies not listed on a public stock exchange.
- Through their low correlation with other asset classes, private equity funds have the potential to outperform traditional asset classes over the long term and to provide diversification for the sophisticated investor.

### Suitable Investors

- The Fund is suited to sophisticated high net worth individuals and qualified investors who understand the characteristics of private equity and alternative asset classes.
- The Fund is an aggressive investment because of the nature of the underlying investments.
- The Fund is suitable for investors who would like a return over the long term, while accepting limited liquidity and the risks inherent with private equity.
- Investors should have a minimum investment horizon of 5 to 7 years and understand the liquidity restrictions associated with the fund.
- No investment guarantees are offered and there is a risk of capital loss.
- It is not advisable for an investor to have a large proportion of their investment portfolio concentrated in private equity.

The value of investments and the income derived from investments will fluctuate and can go down as well as up. A loss of principal may occur. Supplemental Risk Disclosure for Alternative Investments In connection with your consideration of an investment in any Alternative Investment, you should be aware of the following risks: Alternative Investments are subject to less regulation than other types of investment vehicles. Alternative Investments may impose significant fees, including incentive fees that are based upon a percentage of the realized and unrealized gains, and such fees may offset all or a significant portion of Alternative Investment's trading profits. An individual's net returns may differ significantly from actual returns. Alternative Investments are not required to provide periodic pricing or valuation information. Investors may have limited rights with respect to their investments, including limited voting rights and participation in the management of the Alternative Investment. Alternative Investments often engage in leverage and other investment practices that are extremely speculative and involve a high degree of risk. Such practices may increase the volatility of performance and the risk of investment loss, including the loss of the entire amount that is invested. Past performance does not guarantee future results, which may vary. The value of investments and the income derived from investments will fluctuate and can go down as well as up. A loss of principal may occur. Interests in an Alternative Investment are highly illiquid and generally are not transferable without the consent of the sponsor, and applicable securities and tax laws will limit transfers. Alternative Investments may themselves invest in instruments that may be highly illiquid and extremely difficult to value. This also may limit your ability to redeem or transfer your investment or delay receipt of redemption or transfer proceeds. Alternative Investments are not required to provide their investors with periodic pricing or valuation information. Alternative Investments may involve complex tax and legal structures and accordingly are only suitable for sophisticated investors. You are urged to consult with your own tax, accounting and legal advisers regarding any investment in any Alternative Investment. Prospective investors should inform themselves as to any applicable legal requirements and taxation and exchange control regulations in the countries of their citizenship, residence or domicile which might be relevant. ### Investing Strategy and Target

The Fund's investment strategy provides investors with exposure to alternative asset classes not generally accessible to the retail investor. Previously this investment class was only available to high-net-worth individuals, life companies, pension funds, corporates, and investment banks. Alternative asset classes are usually classified as non-public companies, non-stock market investments and are therefore classified as high-risk investments as it is not traded on the stock exchange. The fund is diversified across a range of alternative asset classes utilising a multi-manager approach whereby fund managers are combined on their skills and expertise in different alternative asset classes. The available alternative asset classes which may be investment in, includes Private Debt, Private Equity, Multi-Asset Income and Commodities.

#### 1.1. Private Debt

Providing investors with a unique entry point to private debt markets which are traditionally difficult to access. Participate in the funding of procurement orders which are highly securitized and are backed by procurement contracts to government and other entities. Funding requests are rigorously assessed and scrutinised so that only the best investment opportunities are considered by the Fund. The orders are short term and secured against the contracts and equipment. The objective of the Private Debt fund is to produce income for investors by opportunistically allocate at least 95% of its investment capital across a spread of private debt funded projects including, but not limited to the following: (a) purchase order funding; (b) invoice factoring; and (c) direct lending.

Benefits of Investing in Private Debt:

- *Investor liquidity* supported by shorter duration terms of loans.
- *Low volatility and correlation* to traditional lending and investments.
- *Security* against contracts and equipment.

#### 1.2. Collections

Providing investors with a unique entry point either as a principal in acquiring and then collecting on non-performing loan portfolios, or as a service provider on an outsourced contingency or on fee-for-service basis, with security of collections books which may exceed 2x collections value.

Benefits of Investing in Collections:

- *Investor liquidity* supported by shorter duration terms of collections.
- *Cash generative* through collections processes.
- *Security* against collection books.

### Key Investment considerations

#### 1.1. Platform Availability

The Fund can be accessed via the LifeCycle Investment Platform, an FSCA Accredited Linked Investment Services Provided.

#### 1.2. Minimum Investment

The minimum investment amount will depend on the investment instrument. For direct voluntary investments, the minimum amount for investment is R1,000. The fund does not have a maximum investment limit.

#### 1.3. Taxation

The Character of the proceeds from this investment and underlying asset allocation, is considered as capital of nature resulting in Capital Gain Tax.

#### 1.4. Time Horizon

Although the fund carries a liquidity profile of 120 days, the time horizon for this asset class for investment into the fund is 5 – 7 years.

#### 1.5. Withdrawals

The Partnership will pay the Withdrawal Amount on the date requested by the Limited Partner in its written notice, provided that the General Partner, in its sole and absolute discretion, determines that the Partnership, through the ordinary course of operations and without disposing of any assets or effecting an in-kind distribution, has cash available ("Available Cash") to fund such payment. In determining the amount of Available Cash, the General Partner will take into consideration cash on hand, liabilities that the Partnership will have to satisfy in the immediate future, expected receipts, and the Partnership's pending commitments to fund new and existing investments. Under no circumstances will a Partnership investment be liquidated outside the ordinary course of Partnership operations to satisfy a withdrawal payment.

If aggregate withdrawal requests for a particular date exceed Available Cash, the General Partner may, in its sole and absolute discretion, reduce all withdrawal requests for the Partnership for such date pro rata in the same proportion that Available Cash bears to the total amount sought to be withdrawn by all withdrawing Partners. To the extent that any Partner's withdrawal request has not been honoured in full due to the Available Cash restriction, such request will be satisfied as of the last day of the next Week (and if not fully satisfied as of that date because of the Available Cash restriction, then as of last day of the subsequent Week and, if necessary, successive Weeks), each time subject to the Available Cash. Any deferred withdrawal requests will have priority over any withdrawal requests received subsequently.
